

## Self-Assessment: Writing Texts (Round 2)

After several rounds of writing practise you know a number of helpful phrases and strategies now that (should) enable you to write coherent texts. Think about the following questions and tick where appropriate:

Yes    Not sure    No

1. I collect my ideas and organise them before I start writing
2. I always write an introduction and a conclusion
3. I know how to structure a paragraph
4. I know suitable linkers and use them regularly
5. I know the difference between written and spoken English
6. After writing a text I proofread it (e.g. I use a dictionary / grammar book)
7. I find it easier now to write texts
8. I am sure I have made some progress

---

There are certainly still some aspects that need improving. Reflect on that for a moment, then write down what you plan to achieve / improve during the next weeks:
